# Our Omnipotent GOD

Though God's name is never mentioned in the book of Esther, we do see His power throughout the events. We see His love for His people; we see that He rules over kings and changes events, **when His people pray.**

The God of Esther and Mordecai is also our God. He will answer our prayers as He answered theirs. We can trust Him with our lives, because He loves us and knows what is best for us. We know that **God is in control** of all things and that He can make everything work together for good if we love and trust Him.
